HISTORY

Aplus has been established to be leader manufacturer and distributor of suspension and steering parts for the IAM in 1992. For the past 26 years, Aplus has been focused on increasing its export business to become industry leaders in exporting to Europe, North & South America and Africa.

Since 2008, Aplus made big capacity and capability investments and today increased its capacity to 3.000.000 pieces per month with help of new manufacturing plants with dedicated staff and

over 26 years of experience of production, we are proud of giving best services and quality.

Our Production is focused on passenger vehicles, light and heavy commercial vehicles for the European, Asian and American applications.

Our advantage resides in flexible and fast service, short lead time, approved quality, and competitive price lines that makes Aplus a reliable and successful long term partner.

About Us

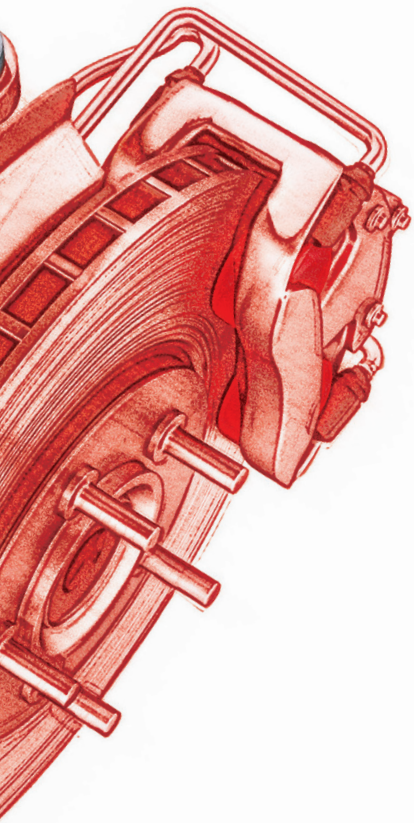

Applus is a leading manufacturer & exporter of suspension & steering parts for the automotive aftermarket

industry since 1992. For the past 23 years, Applus has been focused on increasing its export business to become industry leaders in exporting to Europe, North & South America and Africa.

Since 2008, Applus made big capacity and capability investments and today increased its capacity to 2.700.000 pieces per month with help of new manufacturing plants with dedicated staff and over 23 years of experience of production, we are proud of giving best services and quality.

Our Production is focused on passenger vehicles, light and heavy commercial vehicles for the European, Asian and American applications.

Our advantage resides in flexible and fast service, short lead time, approved quality, and competitive price lines that makes Applus a reliable and successful long term partner.

HAVING EXACTLY REQUIRED OF SPECIFICATIONS IN ONE GO BY USING MODERN & CAPABLE EQUIPMENTS

Establishing all the systems necessities in the manufacturing process within its body, Applus carries out every stage of the product from the design to the final control by using the advanced techniques and offers special solutions with high quality standards to its customers.

MISSION

To serve the global automotive industry as Tier 1 and reliable supplier with a widest range of high quality products

VISION

With our size, range, capacity, quality and service, we aim to become the number 1 supplier of suspension and steering parts in the world for the automotive aftermarket, OEM and OES industries, with its integrated facility.

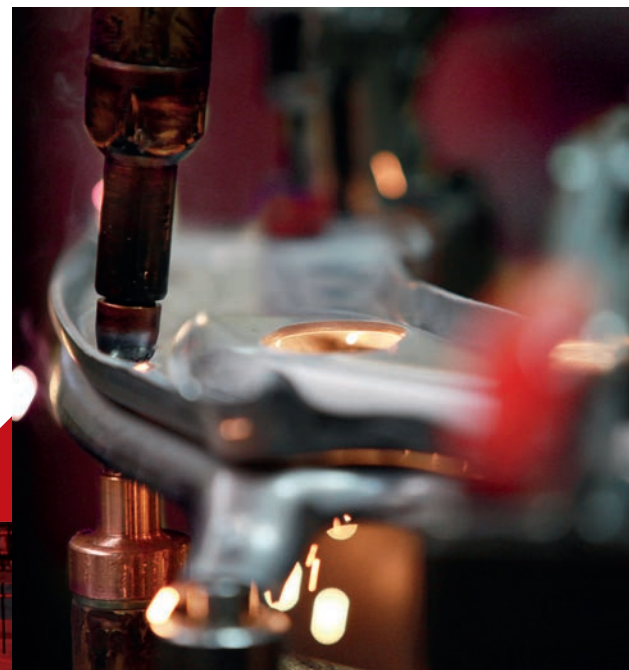

It carries the manufacturing in the desired quality and time by using most up to date and capable ERP program. It carries out every stage of the products from the design stage to the final stage by using the modern design and computer aided production programs that keep the efficiency and creativity in the highest level. Applus, is in continuous improvement and development. It increases its production and quality every passing day by making mutual projects with the international R&D companies expert in their fields.

QUALITY POLICY

Enthusiastic awareness of quality objectives motivates our employees to continually strive to develop ever more reliable products and to effectively meet high quality standards when integrating these projects in the overall process chain.

- Our zero-defect policy is essential for achieving quality objectives.
- Sustainable implementation of our quality policy is the cornerstone for the continued success of the company, and is beneficial to partners, employees, customers, and associated affiliates.
- Our commitment to meet the requirements of ISO TS 16949 as well as customers' specifications forms the basis of our actions. The effectiveness of our quality management system is reviewed through internal audits and adapted to meet growing market requirements through continuous improvement and lean manufacturing advancement.
- Our commitment to maintain high quality standards has always been, and will always be one of the pillars of our success at all of our production facility.

DF[®]
PLUS
Automotive Parts

ALUMINUM FORGING

In line with our watch-word. Started operating end of 2011. Growing rapidly with more part numbers production for high quality aluminum parts. Improved lead time - on time shipments. Flexibility on aluminum new to range development.

RUBBER TO METAL

As a small but important component of steering & suspension products, rubber to metal parts are now produced. One of the most capable rubber to metal plants in it's sector!

STEEL FORGING

Production on a 13.000 m² covered area. Modern and ergonomic lay-out equipped with state of art technology Clean, safe and friendly working conditions.

WISHBONE STAMPING

We are proud of our new stamped wishbone plant. One of the best in the after-market sector. Advantage of having its own moulding unit .More than 50 part numbers development each year. Automated welding with 22 welding robots. Oe quality welding standards and high quality products.

THE BEST AND THE MOST MODERN PLANT IN ITS SECTOR!

CATAPHORESIS (E-COAT) UNIT

Cataphoresis (e-coat) unit started operating by 2012. Improved product appearance. Less operator influence and high purity. High added value on the parts. Excellent corrosion resistance (up to 10 years).

MACHINING

Huge machining park with more than 250 Cncs & turning machines. Ready for on time production with high capacity Skilled personnel & latest technology equipment. Lean production layout by product groups. Quality is produced not controlled conscious. Planned and managed by mrp & erp applications. Dedicated plant for cv parts machining and assembly.
